Reviews

This publication might be well worth a study, and much better than other. It is among the most awesome book i have got study. You may like the way the article writer publish this publication.

(Dr. Paige Bartell)

HISTORY AND EVOLUTION OF AMERICAN AGRICULTURE (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book deals with the evolution of American agriculture, the effect of machinery both upon production and rural population; and the last chapter attempt to show the development of a distinctly proletarian class upon the farms. Five periods mark the agricultural history of the United States since the advent of the white man. The first or Colonial period extends to the end of the Revolutionary War and records but slight technical advances in the art of agriculture. The second period, from 1783 to 1830, saw a rapid spread of the agricultural population across the mountains into the Ohio, Cumberland and Tennessee Valleys and even beyond the Mississippi to the edge of the great plains. A public land policy was adopted by the Federal Government, cotton became the dominant agricultural product of the South and made slavery a paying and therefore a characteristically Southern institution, and the first efforts to apply science to agriculture were made. During this period, as in the first one, agriculture was practically self-sufficing, though in the South the specialization on cotton caused a considerable dependence on other regions for supplies that otherwise would have been produced at home. In the third period, from 1830 to 1865, occurred an almost complete transformation of agriculture. The rapid rise of the factory system in the North, due to the use of steam and a flood of labor saving inventions with a consequent transfer of home industries into the shops, the invention of agricultural machinery such as the reaper, mower, thresher, etc., the extension of the railway system and the development of the prairie states caused an era of specialization which transferred agriculture into the commercial stage. Crops were now grown primarily...
